

Indiana Department Of Homeland Security	Operations Level Training Program	Confined Space Rescue Module	Master Checklist Of JPR's
-----------------------------------------------	--------------------------------------	---------------------------------	------------------------------

Student Name:

This is intended as a comprehensive psychomotor skills checklist and is to be used to document student skills practice.

Directions: A master checklist must be completed for all students.

As any of the listed skills are practiced, the instructors / evaluators shall complete document such complete opportunities up to two (2) times.

Student must be afforded an opportunity to practice those skills *prior* to the skills evaluation. Performance of skills is dependent on the "usual and customary" practices of the jurisdiction(s) having authority. Evaluators should note those skills not performed due to jurisdictional practices.

Only those skills actually practiced shall be recorded as having been completed. When the skill is performed satisfactorily, the "Sat." column should be checked. However, if the skill is NOT performed satisfactorily, then the "Unsat." column should be checked. If a student was *not* afforded an opportunity to practice any of the skills, instructors / evaluators must document such by writing "NA" in the "Sat." box.

Psychomotor Confined Space Rescue Operations Skills Practice Checklist

Skills Practiced	NFPA Standard	Date	Initials	Sat	Unsat	Date	Initials	Sat	Unsat
00:01 Personnel operating at the Operations level shall meet awareness level requirements regarding Confined Space, Rope, and Trench as specified in NFPA 1670, 2004 Edition	7.3.1								
00:02 Personnel operating at the operations level shall meet all operations level requirements regarding rope as specified in NFPA 1670.	7.3.1								
00:03 Personnel operating at the operations level shall meet all Requirements of Chapter 4 of NFPA 472, <i>Standard for Professional Competence of Responders to Hazards Material Incidents.</i>	7.3.1								
01:00 Hazard Recognition									
01:01 Identify specific procedures for mitigating hazards at a confined space, with consideration of the following:	7.3.3 (1)								
01:0101 Personnel protective equipment, fall protection, harnesses.	7.3.3 (2)								
01:0102 Lockout / tag out procedures.	7.3.3 (2)								
01:02 Procedures to perform a confined space hazard assessment. (i.e. entry permit)	7.3.3 (1)								
01:03 Procedures to perform a scene assessment in order to determine the magnitude of life safety, with consideration of the following:	7.3.3 (1)								
01:0301 Type, size, access and internal configuration.	7.3.3 (1)								
01:0302 Information regarding current and potential hazards.	7.3.3 (2)								
Skills Practiced	NFPA Standard	Date	Initials	Sat	Unsat	Date	Initials	Sat	Unsat
01:0303 Risk versus benefit analysis.	7.3.3 (1)								
01:04 Continued size-up of existing and potential conditions with consideration of the following:	7.3.3 (1)								
01:0401 Engulfment potential, environmental, harmful forms of energy, configuration hazards.	7.3.3 (1)								
01:0402 Available / necessary resources.	5-3.3 (1)								
01:0403 Establishment of control zones.	7.3.3 (1)								
01:0404 Magnitude of the hazard and isolation procedures.	7.3.3 (2)								
01:0405 Effectiveness of the non-entry or qualifying entry-type rescue.	7.3.3 (9)								
01:0406 Overall safety of rescue operations.	7.3.3 (2)								

Indiana Department Of Homeland Security	Operations Level Training Program	Confined Space Rescue Module	Master Checklist Of JPR's							
Student Name:										
01:0407 Level of rescue response (appropriate for the type of rescue being attempted).	5-3.3 (9)									
01:0408 Current and projected status of the planned response.	7.3.3 (9)									
01:0409 Maintained personnel accountability	7.3.3 (1)									
01:05 Procedures for assuring personnel are capable of appropriately managing the physical and psychological challenges.	5-3.3 (3)									
02:00 Roles and Responsibilities										
02:01 Performs the roles, functions and responsibilities of the following per the AHJ and 1910-146:	7.3.3 (4)									
02:0101 Rescue entrant (s)	7.3.3 (4)									
02:0102 Rescue back-up entrant (s)	7.3.3 (4)									
02:0103 Rescue attendant	7.3.3 (4)									
02:0104 Rescue team leader	7.3.3 (4)									
03:00 Atmospheric Monitoring										
03:01 Performed oxygen concentration monitoring per manufacturer's directions for device(s) used.	7.3.3 (5)									
03:02 Performed combustible atmospheric monitoring per manufacturer's directions for device(s) used.	7.3.3 (5)									
03:03 Performed toxic atmospheric testing per manufacturer's directions for device(s) used.	7.3.3 (5)									
04:00 Rescue Procedures										
04:01 Develops plan and implements appropriate procedures for confined space rescue operation.	7.3.3 (6)									
04:02 Performs entry-type rescue into confined space that the internal configuration of the space is clear and unobstructed with the victim easily seen from the outside of the space.	7.3.3 (6)									
04:0201 Performs entry-type rescue into confined space while wearing necessary PPE, including SCBA/SABA.	7.3.3 (6)									
04:0202 Performs rescue while employing buddy system.	7.3.3 (6)									
05:00 Patient Packaging										
05:01 Packaged or assisted with packaging a victim in a simulated confined space setting.	7.3.3 (7)									
05:02 Provide initial medical treatment and provides pertinent information concerning victim to EMS per AHJ protocols.	7.3.3 (8)									
06:00 Retrieval Systems										
06:01 Assisted with the construction of a tripod retrieval system.	7.3.3 (10)									
Skills Practiced	NFPA Standard	Date	Initials	Sat	Unsat	Date	Initials	Sat	Unsat	
06:0101 Assisted with vertical retrieval of a packaged victim from a simulated confined space using a tripod system.	7.3.3 (10)									
06:02 Assisted with the construction of rope lowering and raising system in a high-angle environment as used by the AHJ.	7.3.3 (10)									
06:0201 Assisted with the retrieval of a victim with a rope lowering or raising system in a high-angle environment as used by the AHJ.	7.3.3 (10)

Documentation of Observed Unsatisfactory Performance

Skill #	Date	Description of Unsatisfactory Performance	Instructor / Evaluator

Acknowledgments

Participant Acknowledgment:

I acknowledge that this document has been reviewed by me. I also certify that I was provided with an opportunity to practice the skills listed above and marked as having been practiced by me and acknowledge those skills marked as unsatisfactory and understand the recommendations related to these unsatisfactory skills.

I also understand that this document may become a part of my training records retained by my respective affiliated jurisdiction and may be retained and reviewed by the sponsoring agency.
